### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel non-elected claims 59-61.

2. The following is an examiner's statement of reasons for allowance: The prior art neither anticipates nor make obvious applicant's claimed invention. Specifically, independent claim 29 requires "at least two submunitions, wherein each submunition has at least one extraction motor having at least one ejection port aligned with at least one flow through-port of the main body portion." The prior art does not appear to disclose a submunition having its own motor with a port aligned with a through port of the main body. Claim 28 is interpreted as requiring a main body with a through-port and a submunition is defined as: any of a group of **smaller weapons** carried as **a warhead by a missile or projectile and expelled as the carrier approaches its target.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
